

U N	Goal	6. Ensure availability and sustainable management of water and sanitation for all
	Target	6.a By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies
	Indicator	6.a.1 Amount of water- and sanitation-related official development assistance that is part of a government-coordinated spending plan

I. Global indicator

〈Type 4〉

Indicator	Amount of water- and sanitation-related official development assistance that is part of a government-coordinated spending plan
Definition	<p>The proportion of total water and sanitation-related Official Development Assistance (ODA) disbursements that are included in the government budget.</p> <p>"International cooperation and capacity-building support" implies aid in the form of grants or loans by external support agencies.</p> <p>"Developing countries" refer to countries, which are eligible to receive official development assistance. This limits the scope of reporting to those countries receiving water and sanitation ODA.</p> <p>Water and sanitation-related activities and programmes include those for water supply, sanitation and hygiene (WASH) (targets 6.1, 6.2), wastewater and water quality (6.3), water efficiency (6.4), water resource management (6.5), and water-related ecosystems (6.6).</p> <p>As per target 6.a wording, it includes activities and programmes for water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies.</p>
