

U N	목 표	2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
	세 부 목 표	2.2 By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
	Indicator	2.2.2 Prevalence of malnutrition (weight for height >+2 or <-2 standard deviation from the median of the WHO Child Growth Standards) among children under 5 years of age, by type(wasting and overweight)

I. Global indicator

<Type 2>

Indicator	Prevalence of malnutrition (weight for height >+2 or <-2 standard deviation from the median of the WHO Child Growth Standards) among children under 5 years of age, by type(wasting and overweight)
Definition	<p>Prevalence of overweight among children: children who are overweight (weight-for-height > +2 standard deviation from the median of the World Health Organization (WHO) Child Growth Standards) as a proportion of population under 5 years of age).</p> <p>Prevalence of underweight among children: children who are underweight (weight-for-height < -2 standard deviation from the median of the WHO Child Growth Standards) as a proportion of population under 5 years of age).</p>

II. Data description

[Data ①] Prevalence of overweight among children under 5 years of age

Calculation method	$\text{Prevalence of overweight among children} = \frac{\text{Children whose weight-for-height} > +2 \text{ standard deviation from the median}}{\text{Population under 5 years of age}} \times 100$
Unit	Percentage(%)
Data sources	Compiled based on the UNICEF global database (CRING).
Calendar	■ Time series: 2000-2019(Data for Korea included in 2003, 2010) ■ Data release: Annually
Data compilers	UNICEF(United Nations Children's Fund), WHO(World Health Organization), WB(World Bank)

[Data ②] Prevalence of underweight among children under 5 years of age

Calculation method	$\text{Prevalence of underweight among children} = \frac{\text{Children whose weight-for-height} < -2 \text{ standard deviation from the median}}{\text{Population under 5 years of age}} \times 100$
Unit	Percentage(%)
Data sources	Compiled based on the UNICEF global database (CRING).
Calendar	■ Time series: 2000-2019(Data for Korea included in 2003, 2010) ■ Data release: Annually
Data compilers	UNICEF(United Nations Children's Fund), WHO(World Health Organization), WB(World Bank)
