U	G o a l	1. End poverty in all its forms everywhere
N	T a r g e t	1.1 By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than $1.25 a day
	Indicator	1.1.1 Proportion of the population living below the international poverty line by sex, age, employment status and geographic location (urban/rural)

I. Global indicator

⟨Type 2⟩

Indicator	Proportion of the population living below the international poverty line, by sex, age, employment status and geographical location (urban/rural)
Definition	The proportion of population living below the international poverty line, which is $1.90 (2011 PPP) a day.

II. Data description

[Data ①] proportion of the population below the international poverty line

Calculation method	Poverty rate $= \dfrac{\text{The population living on less than \$1.90 a day}}{\text{Total population}} \times 100$
Unit	Percentage(%)
Data sources	The World Bank archives the income and consumption survey data obtained from each country's statistics service and then harmonizes them, applying common methodologies.
Calendar	▎Time series: 2000-2018(Data for Korea included in 2006, 2008, 2010, 2012) ▎Data release: Annually
Data compilers	Within the World Bank, the Global Poverty Working Group (GPWG) is in charge of the collection, validation and estimation of poverty estimates.

[Data ②] The proportion of the employed population below the international poverty line

Calculation method	Working poverty rate$= \dfrac{\text{Employed persons living on less than US\$ 1.90 a day}}{\text{Total employment}} \times 100$
Unit	Percentage(%)
Data sources	The ILO produces global and regional estimates of employment by economic class(and thus, of working poverty rates) using the ILO's Employment by Class(EbyC)model
Calendar	▎Time series: 2000-2019(Data for Korea included in 2006, 2008, 2010, 2012) ▎Data release: Annually
Data compilers	ILO(International Labor Organization)
