U N	Goal	11. Make cities and human settlements inclusive, safe, resilient and sustainable
	Target	11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels
	Indicator	11.b.1 Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030

I. Global indicator

⟨Type 2⟩

Indicator	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030
Definition	The number of countries that implement the Sendai Framework for Disaster Risk Reduction. The Sendai Framework is a post-HFA strategic disaster control plan, which highlights proactive prevention in disaster control, rather than ex-post restoration to reduce deaths and damages attributed to disasters.

II. Data description

[Data] Scores of adopting and implementing national disaster risk reduction strategies in line with the Sendai Framework

Calculation method	-
Unit	-
Data sources	Given the requirements for disaster risk reduction strategies enshrined in reporting on the SDGs and the targets of the Sendai Framework, it is expected that by 2020, all member states will report their DRR strategies according to the recommendations and guidelines by the OEIWG.
Calendar	▌Time series: 2015-2019(Data for Korea included in 2015-2018) ▌Data release: Annually
Organizations	UNISDR(United Nations International Strategy for Disaster Reduction)
